This is achieved by being met with trust, feeling safe, feeling valued, being part of a community, and understanding one's own resources and capacity.

Formation (General Education)

This is achieved through an obligatory association with a proper tone of voice, where action and consequence are closely linked and support a normal, good upbringing. Vocational education is developed through independence and good work discipline.

Mutual respect

This is achieved through tolerance, appreciation of individual uniqueness and backgrounds, and taking oneself and others seriously.

Being present

This is achieved through manageable structures, close cooperation between children, parents, and staff, and openness in daily life.

Health

This is achieved by the child being in a healthy environment, experiencing healthy choices and being aware of one's own health.

Camp at the school

The school year starts with a week of camp at the school where students in 3rd-9th grade stay overnight at the school. During the week, pleasant and challenging competitions, physical activities, team building, reflection and visions for the coming school year are shared and developed together. The pupils in grade 0.-2nd participates in daytime hours at 7.00-16.30 with their own separate programme.

Events

During the school year, two festive events are held, where the students have prepared performances, exhibitions, workshops etc., and all parents are invited for a few pleasant hours together. Usually a summer party is held at the end of the school year and a Christmas party is held in December.

At the general meeting, information is given on the year that has passed, new initiatives, finances, and elections are made to the board of the school.

Contact the school

You are always welcome to contact the teachers at the school at +45 29843225 with any current questions, or in urgent cases, privately between 07:00-08:00 and 14:00-17:00. The teachers will, of course, also contact you if there are any uncertainties. Additionally, meetings between parents and teachers are held twice a year, where the class teachers discuss each child individually with their parents.

Birthdays in Grade 0.-3rd

If you wish for your child to celebrate their birthday in class at school, you can send the invitations with your child—preferably four days in advance. Additionally, please ensure that whatever you want your child to serve to their classmates is delivered to the school on the day, and we will arrange for a pleasant celebration. You are, of course, also welcome to invite the class to your home for the birthday party. If you choose to host the party at home, we kindly ask that you invite either the entire class, all the boys, or all the girls.

Students in grades 4-9 are welcome to bring and share cake or similar treats during the school day.

When snow falls, and in the event of a snowstorm making roads impassable, it may be necessary to close the school. If this is required, an email will be sent, and the information will be posted on the school's website by 6:30 a.m. on the same day. Additionally, it will be announced on Facebook and mentioned on Radio Sydhavssørne.

Play dates

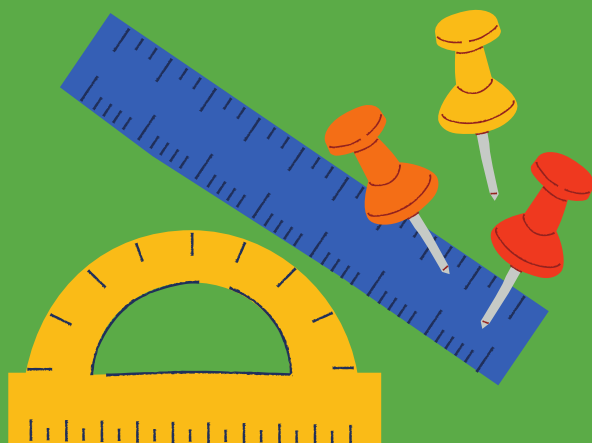

Parents will receive a contact list, and we kindly request that playdates are arranged directly between parents so that the child does not need to make calls about this during school hours.

After School Program (SFO) Hours

On school days from 7:00-8:00 and Monday to Thursday from 14:00-16:30, Friday from 13:00-15:30, as well as two weeks during the school summer holidays. Note: In the case of a seven-week summer holiday, the after-school care (SFO) will be open for three weeks.

FOR PARENTS WITH CHILDREN IN PRE-SCHOOL - 2ND GRADE

The school schedule from April to the summer holiday for pre-school

This period is seen as a "learn to go to school period" with many playtime sessions, creative activities, physical education, and few academic lessons, allowing the students to adjust to the learning environment. Academic teaching will focus on Danish and mathematics.

Change of clothes

In the children's wardrobe, there is space for: two pairs of mittens, a hat, a snowsuit (which can be replaced with a rain suit depending on the season), a jacket, a pair of shoes, and a pair of indoor slippers. Additionally, the children have a box in the classroom where they are asked to keep a change of clothes. We kindly ask parents to maintain order in the children's boxes and wardrobe and ensure that they have the necessary items.

Your child's class and teaching

From April until the summer holiday, your child will attend pre-school. Pre-school is a special time to get to know the school, the students, and the staff, explore the school grounds, develop new skills for attending school, and play with peers. Starting in August, your child will move on to Grade 0.

At Skovby Friskole, students receive individually structured teaching, meaning your child will always be challenged at an academic level appropriate for their unique abilities.
